Sarawut Nangyam

Junior Full stack developer / Front-End developer

Summary :
I have **7 months** of experience in software development, transitioning from mass communication. I **utilize my communication skills in team settings for software development**. I'm passionate about it, thrive on learning, and currently work primarily with **React** for frontend and **Node.js** for backend. Anyway, **I'm always eager to learn new stacks**.

Work Experience

BAANSINSODSUPMONGKOL CO., LTD.
— *Customer Service Representative*

2022 - 2023

- **Enhanced** customer satisfaction through quality **communication and punctuality**.
- **Resolved** specific issues smoothly when they arose.

NH Herbs.
— *Salesperson*

2019 - 2021

- **Recommended** products that are suitable and satisfactory for customers
- **Increased** company sales by over 20% per month

Projects

My Portfolio — showcases my work and personal history, along with some of my perspectives .

- I developed it using React and implemented responsive design to ensure compatibility with all screen sizes.
- The project is deployed on Vercel.

CourseFlow — is an online learning and teaching platform.

- empowers users to create profiles, subscribe to courses, and efficiently manage their own course offerings.
- React for client-side interaction (Frontend) and Node.js for server-side rendering (Backend).
